Standard Model

Push Bars

Standard Model
Push Bars Also Available in Winch-Ready Premium Model

Push Bars offer a stylish, heavy-duty solution for pushing and mounting aftermarket lights, sirens, responder lights, winches, and speakers. Ideal for off-roaders, construction crews, fire, police, & highway departments.

Ready to Ship
Ready for Showroom

Automated plasma line for rapid and repeatable cuts.

Top Gun's advanced CNC Laser Tube Cutting System loads, cuts, copes, and drills grille guard and pipe bumper parts.

CNC Tube Formers bend tubes to precise angles and exact tolerances ensuring a perfect fit and support complex tube bends with one set-up.

Top Gun's conveyorized, high volume, five-stage wash and powder coat line guarantees a clean, smooth, repeatable and rugged finish on each part.

Industry best packaging ensures that Top Gun products arrive at your showroom clean, undamaged and ready to sell.
